Subject: Draft position paper on Dechlorane Plus risk profile
Attachments: 4(a)(i).DechloranePlus.RP.Dec13.docx

Hi Karissa,

Here is a draft position paper on the Dechlorane Plus risk profile.

Comments on the POPRC documents are being accepted through Friday. I don't think they usually do this before the POPRC meetings, do they? It's probably to try to save time during the online meeting.

Should we be submitting comments if our papers aren't finalized yet? This seems different than the intersessional working group process.

Thanks, Laura
